The Challenge to Achieve the Vision

Over the next year, RHP 7 DSRIP providers will take on **at least one partnership with one provider** to create a health ecosystem where:

- Patients have ease of access to appropriate levels of treatment, information, prevention, health, and compassionate care.
- Patients easily engage in their own health care because compassionate care and healthy choices are supported by the environment and community.
- Providers, systems, and care teams are supported and empowered to provide individualized care.

What's next for the waiver?

- Extension vs. Renewal
- Texas's Initial Strategy
 - *Request extension rather than renewal*
 - *Maintain or increase funding levels in DSRIP and Uncompensated Care pools*
 - *Ensure better alignment with Medicaid managed care*
- Timelines
