Oncology Case Management

The Central Health oncology case management team works with the Ascension Seton oncology navigation team. Together, we help you understand your health and get the services you need. We connect you to transportation, housing, food, and medical care. This support helps you focus on your treatment and recovery.

How the oncology case management team can help you

- Understand your health and your care plan.
- Apply for assistance programs, such as the Supplemental Nutrition Assistance Program (SNAP) or Metro Access.
- Connect with community resources and medical providers.
- Learn about your medicines and your cancer treatment plan.
- Prepare for appointments and share your questions and concerns.
- Connect with cancer doctors and care teams.
- Learn about your health care coverage options.

Your care team includes the Ascension Seton oncology navigation team and the Central Health oncology case management team, which includes a nurse case manager and a community health worker. They work together to support your medical and social needs.

CENTRAL HEALTH

About your Ascension Seton oncology navigation team

Your Ascension Seton oncology navigator helps you with your cancer care. Your care team is available Monday through Friday, 8 a.m. to 5 p.m.

If you need medical help outside of these hours, call 512.324.7000. Dial 0 and ask for the "oncologist on call."

If you have a medical emergency, call 911.

The Ascension Seton oncology navigation team helps you:

- Understand your cancer medicines.
- Understand your cancer care plan.
